2

LEVELS + RIDGE

The Great Room

*Two stories of gable glass
pull the **mountain** straight
into the room — light all day,
stars all night.*

At the heart of the Apex is a single, soaring volume where **kitchen, dining, and living** open to one another beneath the ridge. A full wall of triangulated glazing frames the view, while warm timber, a masonry hearth, and a sculptural island keep the space grounded and intimate.

ii.

Rest & Retreat

THE APEX • TRUESPEC

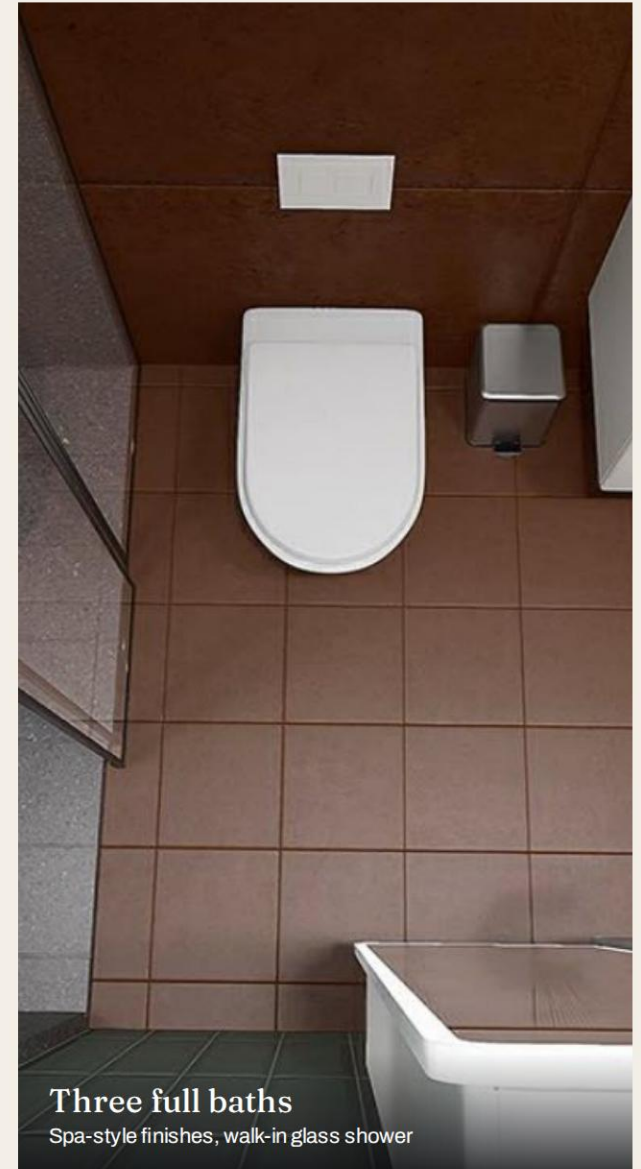

Main-floor bedrooms

Two ground-level rooms with garden-level glass

The ridge suite

A private upper suite beneath the A-frame

Three full baths

Spa-style finishes, walk-in glass shower

The Apex sleeps a full household in comfort: **two bedrooms on the main floor** for easy single-level living, plus an expansive **upper private suite** beneath the ridge — its own bath, balcony, and a quiet overlook into the great room below.
